Spacious five-seat cabin with luxury leather seating and ample legroom for both pilot and passengers. The wide panoramic windows provide exceptional visibility and a bright, open feel, while the sound-dampening cabin trim ensures a quiet, comfortable flight experience.

The interior is finished in premium marine-grade materials designed to withstand coastal and humid environments, with matching leather side panels and coordinated carpeting that give the cabin a refined, modern look. A rear baggage compartment offers generous storage for gear or personal items, and climate-controlled ventilation keeps the cabin comfortable in all seasons.
